

# Globalstar Sat-Fi2<sup>®</sup> Remote Antenna Station

No matter how far the work takes you, the **Globalstar Sat-Fi2 Remote Antenna Station (RAS)** keeps you connected when cellular service is unavailable by transforming your smart device into a satellite device. The multi-functional RAS provides reliable satellite communications from indoors or outdoors – with the ability to talk, text or email via satellite Wi-Fi from any vehicle, vessel or building. Users can maintain access to contacts, manage remote work operations and stay productive all through their smart phone or Wi-Fi enabled device. Users can also access compressed web content, check the weather, or post to social. With S.O.S. capabilities, remote and lone workers can communicate with GEOS emergency response for added peace of mind if search and rescue services are needed. Conveniently connect up to eight smart devices on your own private satellite Wi-Fi network.

**Sat-Fi2  
Remote Antenna Station**
