Globalstar Sat-Fi2®

TALK | TEXT | EMAIL | BROWSE | S.O.S.

No matter how remote the work takes you, **Sat-Fi2** keeps you connected when cellular service is unavailable by transforming your smart device into a satellite device.

Connect easily using the Sat-Fi2 App and extend your business communications from the field with portable satellite Wi-Fi. Use your smartphone contacts to conveniently make a phone call, send a text message and an email directly from the app. Access compressed web content using Sat-Browse, check the weather or post to social. With S.O.S. capabilities, you can communicate with GEOS emergency response for added peace of mind if search and rescue services are needed.

Run your business and stay productive all with the convenience of connecting up to 8 smart devices to a private satellite Wi-Fi network.
